

**C20 Society - Southern Regional Group
Chairman Report to C20 Society AGM June 2018**

Events

There were visits to the following arranged during the year:

Poole: The highlight of the day was a visit to Oliver Hill's Landfall. Subsequent to the visit the Society requested an upgrade of it's listing to Grade 11* - a decision is still awaited.

Salisbury/Ansty Plum: After a walking tour searching out C20th buildings in Salisbury, we had a super visit to Ansty Plum, a lovingly restored property originally by David Levitt with a studio/garage by the Smithsons.

Weston Shore: An interesting walk/cycle in the sunshine led by Owen Hatherley from the striking high rise flats to the 1930's YMCA building at Netley..

Worthing: A great walk featuring a visit to the Dome but a few of us were also very keen on the Barclays Bank building in the town.

Fawley: What a treat this visit was. We were struck by the quality of the building and its superb location. Sadly with a Certificate of Immunity issued and plans for a development nearing a planning application stage, all is to be demolished unless use can be found the buildings - even the chimney now seems to be at risk.

AGM: A great presentation by John of some of the photos taken on C20 trips.

All events have been well attended and a small donation has been made to central funds.

Social Media

The Group has Facebook and Twitter accounts - the latter being used to advertise events to good effect.

Plans for 2018

A programme of events has been put together for 2018.
